LOBOY™ DRUM CARTS

K-Tec low ground clearance carts deliver flexibility and top quality to complement **lean material flow** programs.

- 100% HD Welded Frame, Powder Paint Finish
- Ultra-low 2.3" Deck Height, 1000lb. Capacity
- Auto-release Floor Lock
- Auto-hitch and Self Stowing, HD Towbar
- Low Push/Pull Force 4-Wheel System
- Leak-proof Containment Pan
- Caster Steering, No Kingpins, Sealed Bearings

INDUSTRY LEADING DESIGN

Carts meet standard ergonomic limits for manual push / pull forces with heavy payloads and standup to tough loading conditions. FEA (finite element analysis)

puts stiffness and weight where needed to produce carts as light and rugged as possible. Numerous "attention to detail" features help K-Tec meet rigorous **safety**, reliability and durability standards. K-Tec ProFlow™ Series carts carry a **two (2) year warranty**.¹

COMMITMENT TO SUCCESS

K-Tec identifies and benchmarks relevant applications, addresses ergo/safety issues and provides on-site feasibility reviews where required. Application engineers are available by conference call or direct appointment to help walk through the early planning and front end design phase of lean material flow projects.² K-Tec also designs ergo-support products such as lifts and conveyors to provide an integrated, dependable solution. A "try before you buy" **demo program** for qualified customers delivers a hands on look at a forklift free solution without wasting investment dollars.
